

## Apricus Videos

A collection of the latest promotional and information videos from Apricus.  
Be Part of the SOLUTION with Apricus

Apricus solar collectors are an effective means of reducing carbon emissions, helping to combat global warming.

### Apricus Solar Collector Features

In mid 2007, the Apricus solar collector was featured on the How To Channel in Australia. This provides a nice little introduction to the solar collector technology and how it works.

### Apricus Ice Ball Test

Apricus evacuated tubes are extremely resilient. They can withstand hail impact and are fully certified.
